

**The Tools:** Click the tool you wish to use. The tools in the green bar are “paint” tools. The tools in the blue bar are “object” tools.

## The Colors:

There are 3 rows of colors. The line colors are on the left, the fill colors are in the middle and the text colors are on the right.

Click the little arrow near the top to add colors. Double click a color to change it.

## The Choices:

Change the way your tool works. You can change line thickness and text choices. Other choices show up here depending upon what tool you are using.

## The Preview:

The Preview shows you what will happen with your tool, your colors and your choices.

**The Browser:** The Browser lets you change the document you are working with. Just click the one you want to use.
